Dear Commissioner

I am writing at this time to state my support for the petition by "The Center for Food Safety". I am asking that the FDA require:

- o No new genetically-engineered foods or products with GE ingredients be released until the Food and Drug Administration requires long-term safety testing of all GE foods before they go to market.
- o All GE foods presently on the market be labeled, giving consumers the right to know what's in the food they are eating.

Please do everything in your power to bring these vital changes into being. Thank You!

Sincerely:
Richard Ulrich
